PROFESSIONAL SUMMARY

I am a passionate web developer currently in my final year of BCA. Over the past year, I have focused on mastering JavaScript and the MERN stack by building my own web applications, including AI-integrated projects. I have experience in both frontend and backend development and enjoy building fast, user-friendly apps that solve real problems. I am hardworking, a quick learner, and ready to contribute to a professional development team.

PROJECTS

EvalAI - AI Interview Agent

- Developed a full-stack AI-based interview preparation platform using React.js and Firebase.
- Implemented Google Authentication and resume upload functionality.
- Created a responsive user interface for a smooth user experience across devices.
- Worked on debugging frontend issues and improving application performance.
- Focused on clean UI design and better usability for users.

Personal Portfolio Website

- Designed and developed a personal portfolio website to showcase projects and technical skills.
- Built responsive layouts using React.js and modern CSS.
- Improved website performance and user experience.
- Added project sections, contact form, and smooth navigation.

AuraChat – Real-Time Chat Application

- AuraChat is a real-time chat application designed for seamless communication among friends.
- It enables users to join chat rooms, exchange messages, and share images, fostering an interactive and engaging experience.
- Built using the MERN stack (MongoDB, Express, React, Node.js) and Socket.io for real-time bidirectional communication.
- AuraChat is ideal for those seeking a modern, feature-rich environment to stay connected with others online.
